Farewell 2022 - Organizing farewell for the class of 2022.

Performer - Au Revoir

Farewell 2022 - Performed at farewell for the class of 2022.

SKILLS

Data Structures and Algorithms

Python (ML Technologies)

C++

MySQL

Math & statistics

HTML & CSS

Git & Github

Tableau

PERSONAL PROJECTS

Agricultural Production Optimization Engine

- Transforming and analyzing data of volume 2200X8 to develop a Logistic Regression Machine Learning Model to predict the suitable crops in the given soil and climatic conditions with 90%+ accuracy on test data.
- Tools used - Python (ML technologies)

Movie Recommendation System

- Built a model using Count Vectorizer Algorithm which takes a movie from user as an input and recommends closest five movies as output.
- Tools used - Python (ML technologies and streamlit for web integration) and Heroku for deployment.
- Project Link - <https://movierecommendation23.herokuapp.com/>

CERTIFICATES

Data Science (06/2022 - 07/2022)

Python, Statistics, Predictive Modeling and Machine Learning | Project - Banking Investment Client Prediction.

Data Analytics with Specialization in Tableau (08/2022)

Data Visualization and Data Presentation using Tableau.

Smart India Internal Hackathon - Participation (2022)

Group project "Shishya" - A student progress tracking system.
